

OPEN HOUSE 2007

Northshore Fire Department held an Open House at its headquarters fire station in Kenmore on October 13th. Several demonstrations were held throughout the day, such as a Technical Rescue demonstration, a car extrication demonstration, and a fire extinguisher and defibrillator demonstration.

Children activities included Stop, Drop & Roll, Crawl Under Smoke, and Dial 9-1-1. Kids tried on real firefighter bunkers, had their picture taken on the fire engine, and got tattoos, balloons and fire helmets.

Our citizens were able to see the new Rescue apparatus, and also learn about fire safety and emergency preparedness. A good time was had by all.

Firefighter Lyle Haugsven shows a young boy what to do if his clothes catch fire: Stop, Drop & Roll!

Kids loved the Northshore Fire Department logo tattoos.

Kids tried on real firefighter bunkers.

Firefighter Brian Ford performed a Technical Rescue demonstration

A Thermal Imager is pointed at this mom and child, Their body heat creates an image as seen on the TV screen. Firefighters use this tool to locate people in structure fires.

Firefighter Bjorn Hodneland demonstrates the proper way to use a fire extinguisher on a stovetop fire.

Firefighters demonstrate a car extrication.
